

Travel to the Brussels Fair

The aim of the travel is to meet Ukrainians who will arrive there /World Fair/ from Poland end of July and beginning of August. We expect the arrival of 3 visitors, whom we will call No 1, No 2 and No 3.

No 1 and No 2 are active among the Ukrainian students in Poland as well as with the USKT. No 3 is a physician from the area of Gdansk, about whom we do not possess detailed information. From the mail exchange with one of our men we know that No 3 agreed to pick up literature in Brussels and bring it to Poland for further distribution.

With No 1 and No 2 we maintain steady contact since fall 1957. During his two visits in Poland professor had lengthy conversations with both, and also Hala knows them from the Moscow festival. Professor is in contact with them by mail. At the same time from other our contact people in Poland we have positive information about these two active "open minded" Ukrainians. According to informations received from the professor both men are, under circumstances, above average and could in the future acquire leading positions. Besides legal literature we have been sending to them, they receive the IB. Informations from the IB, No 1 uses in his correspondence with his friends in Lviv and Kiev. Among those is the editor of the paper "Leninska Molod'" in Lviv.

The meeting with No 1 and No 2 would have the following purposes:

1/ Replenish information about the newest situation in the Ukrainian sector in Poland and receive the latest information about the situation in Ukraine. Valuable information in this respect is expected from No 1, who besides his correspondence with friends in Ukraine maintains steady contacts with Ukrainian students who study in Kiev and who at the present time returned to Poland for vacation. No 1 could give information about their impressions and experiences.

2/ Together with the professor who will arrive to Brussels, Ort. will give them a kind of "short course" on international situation and the tasks in the event of eventual new situations. In the case of eventual disruption of the present contact the visitors should be able to continue their work. They should be able to make decisions in different situations on their own and therefore their political education and orientation should be supplemented.

3/ In connection with No 1 travel to Kiev later next fall his attention should be drawn to some details: how to lead discussions, how get acquainted with the situation there and what to observe closely.

4/ Discuss all possibilities of contacts with Ukraine.

5/ Discuss the technique of maintaining contact for the future.

Meeting No 3 would facilitate orientation in the man himself and to what extent he is adequate to closer contacts with us. Handing to him the Ukrainian Encyclopedia and other books for bringing them to Poland is another purpose of meeting No 3.
